Forecast for Tuesday 05 Jul 2022

Weather: A rather cloudy start with a chance of some light rain or drizzle. Cloud probably breaking and thinning to allow some bight or sunny spells to develop. Cloud increasing and thickening in evening with rain likely by dusk, but this should be mostly light in intensity.

Chance of cloud-free hill tops above 600m: 50% early hours Tuesday morning, improving to 95% by mid to late morning, then reducing to 70% after dusk.

Low cloud and visibility: Chance of broken cloud bases around 600m in early hours, before thinning and lifting above summits by mid to late morning. Visibility mostly good or very good during daylight hours but moderate at times overnight and poor or very poor in any cloud covering summits.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Some poor visibility across the highest summits during the early morning could make navigation difficult for a time, especially with paths turning slippery underfoot due to showers. Conditions improving by the afternoon with occasionally strong sunshine and adequate sun protection is recommended.

Recent rainfall: measured at Cat & Fiddle: altitude 511m

14:00 on Mon 04 Jul 2022	0mm	1.2mm	5.2mm

Forecast for Wednesday 06 Jul 2022

Weather: A cloudier day compared to recent days is likely with some rain and drizzle at times, although this should be intermittent and mostly light. Cloud covering summits in the morning and again overnight.

Maximum wind: Westerly or north-westerly 35-40mph.

Chance of cloud-free hill tops above 600m: 30% at first in early hours of Wednesday morning, becoming 80-90% for the afternoon and early evening periods.

Low cloud and visibility: Broken to overcast cloud bases around 500m on Wednesday morning probably thinning and lifting above summits for the afternoon and early evening then lowering again around dusk. Visibility mostly good or very good during daylight hours but moderate or poor at times in rain and drizzle and very poor in cloud covering summits.

Temperature: **Valleys:** Plus 9 degrees Celsius becoming plus 17 degrees Celsius for a time in afternoon.
At 600m: Plus 7 degrees Celsius becoming plus 11 degrees Celsius for a time in afternoon.
Freezing level: Well above the summits.
